

Briefings on Infection Control

Practical information on compliance and staff training for ICPs

Briefings on Infection Control 2009 Index

Accreditation

New kid on the block: DNV accreditation offers choice.
Jan., p. 10.

Ambulatory care

Affecting change in Nevada's IC regulations. Oct., p. 8.
Ambulatory surgery centers face IC crackdown.
July, p. 5.

Finances and funding

Eight ways to get more IC for your money. April, p. 8.
HHS plans to use \$50 million to prevent infections.
July, p. 7.
Infection prevention faces budget cuts, higher expectations. Sept., p. 5.

Hand hygiene

A rap video to improve hand hygiene compliance.
Aug., p. 12.
Secret shoppers help improve hand hygiene compliance. April, p. 1.

IC during construction

Counting particle dust during construction. May, p. 5.

IC horror stories

Horror stories highlight safety and IC faux pas.
Nov., p. 7.

IC resources

New site offers free resources for ICPs. March, p. 12.

IC strategies

Activity-based management plus financial accountability equals success. April, p. 6.

Are checklists the future of infection prevention?
June, p. 3.

Bringing down infection rates quickly. Nov., p. 1.
Eight tips to help you conduct a thorough outbreak investigation. March, p. 1.

Environmental services: Prevent infections and ensure safety. Dec., p. 6.

Greening your hospital without sacrificing IC. May, p. 1.
Make support staff part of infection control. April, p. 11.
Three hospitals share their award-winning infection prevention strategies. Feb., p. 1.

Influenza

Educating visitors about isolation precautions. Dec., p. 11.
Take a strong stand against the flu with declination forms. Jan., p. 10.

Joint Commission compliance

Communication is the key to compliance. May, p. 10.
Evaluate your IC plan for efficiency. Nov., p. 11.
Forge a working relationship with the lab. April, p. 10.
IC.01.03.01, assessing risk is a starting point. Jan., p. 8.
IC deficiencies elicit a close look at the MRI suite.
Aug., p. 5.

Joint Commission changes things up again this year.
March, p. 8.

Joint Commission revisions focus on processes as well as outcomes. Dec., p. 1.
Preventing disease transmission is focus of IC.02.03.01.
March, p. 9.

Steam sterilization is on Joint Commission's radar.
Sept., p. 1.

Strengthening your vaccination program. Oct., p. 11.
This patient rights standard has implications for IC.
Feb., p. 6.

Lawsuits

Malpractice lawsuits could have more implications for infection prevention. April, p. 4.

MDROs

Aggressive action (and aggressive nurses) fight *Acinetobacter* at Louisiana hospital. Jan., p. 4.

Building an antimicrobial stewardship program. Sept., p. 8.

C. diff more prevalent than previously believed. Jan., p. 1.

New antibiotic-resistant organism elicits CDC recommendations. June, p. 1.

Protecting your work force from MDRO infections. Oct., p. 4.

MRSA

Reducing MRSA rates with positive deviance. June, p. 10.

Study finds a decline in MRSA in the ICU. May, p. 8.

Tennessee hospital reduces MRSA in long-term care patients. Feb., p. 5.

National Patient Safety Goals

Deadlines come fast and furious on patient safety goals. June, p. 8.

Getting organized to meet standards on MDROs. July, p. 9.

Reducing central line infections outside of the ICU. Aug., p. 10.

SSI prevention measures include evidence-based guidelines. Sept., p. 12.

Pandemic planning

How much PPE is enough during a pandemic? June, p. 7.

How to plan better for infectious waste disposal. Aug., p. 8.

IOM releases final recommendations on N95s. Nov., p. 10.

N95 fit testing during a pandemic. July, p. 11.

New York requires flu vaccines for healthcare workers. Nov., p. 4.

Special report: Preparing for potential: Pandemic planning in 2009. Oct., p. 13.

Swine flu scare provides real-time preparedness training. July, p. 1.

Policy and procedures

Eight ways to get the word out on a new policy or procedure. Jan., p. 12.

Sample forms

Central-line insertion checklist. June, p. 6.

High alert precautions. Jan., p. 7.

Infection control hand hygiene survey. Dec., p. 5.

Influenza declination form. Jan., p. 12.

Outbreak procedure. March, p. 4.

Sample seasonal influenza vaccination protocol. Oct., p. 12.

Testing of strategies. Nov., p. 12.

Sterilization and disinfection

CDC releases new disinfection and sterilization guideline. Jan., p. 10.

New CDC guidelines: Current and comprehensive. Feb., p. 8.

Surgical site infections

Overcome challenges to reduce surgical site infections. March, p. 6.

Technology

Electronic surveillance systems increase efficiency. Aug., p. 1.

ESSENCE provides hospitals with early flu virus detection. Dec., p. 9.

New ICU technology could improve IC processes. Oct., p. 1.

Training

APIC campaign can benefit visitors and staff. May, p. 12.
