Shortages loom in breast imaging personnel. April, p. 5.

Women undergoing mammography. April, p. 3.

Working with your insurers to improve care. Aug., p. 11.

### Coding and billing/reimbursement

Answers to your coding questions. Nov., p. 12.

Mammography is starting to make dollars and cents. June, p. 9.

Manage denials to weather economic storm.

March, p. 10.

Signatures not required, but are good practice.

April, p. 11.

This year brings much of the same for coding and billing. March, p. 9.

Tips and tricks. Sept., p. 5.

### Digital mammography

Be aware of software updates, but don't install too quickly. Feb., p. 5.

Better image contrast improves digital cancer detection in dense breasts. Sept., p. 6.

Cancer visibility. Sept., p. 7.

Comparisons by groups. March, p. 7.

Focus on training during digital contract negotiations. Feb., p. 9.

How to avoid some top mistakes with digital mammography. June, p. 12.

Screen vs. digital interpretation times. March, p. 8.

Study: Interpreting digital exams takes more time. March, p. 7.

### Industry trends and information

More RTs than jobs in the current market, July, p. 11.

### Legal issues

How to say 'I'm sorry.' Nov., p. 3.

Radiologist estimates on malpractice risk. April, p. 10.

Radiologists' mammography malpractice risk less than most physicians actually expect. April, p. 9.

Radiologists reluctant to tell patients when they make errors. Nov., p. 1.

### MQSA, ACR, and regulatory updates

About the mammography study. March, p. 3.

FDA adverse event and action report highlights fraud, quality control problems. Nov., p. 10.

> continued on p. 12

## 2009 index

< *continued from p. 11*

The FDA advisory at a glance. March, p. 3.  
Lessons to take from the Adverse Event Action Report.  
Nov., p. 11.  
Lidocaine gel poses serious risks, FDA states. March, p. 1.  
Looking ahead to 2010: Joint Commission compliance.  
Dec., p. 12.  
Protect your PHI or face new penalties. Oct., p. 10.  
Regulators take action: Tips to avoid an MQSA citation.  
May, p. 10.  
Stay out of hot water with the FDA. Sept., p. 11.

Update: UNC breach makes organizations wary.  
Dec., p. 9.

### Practice tips and patient education

17 ways to save the environment (and money). Aug., p. 1.  
The angry patient: Avoid surefire ways to make your patients mad. Jan., p. 1.  
Boost negotiating power with simple tips. Oct., p. 1.  
Catch the eye of your radiologists by using charts instead of text-filled tables to deliver audit data. Aug., p. 8.  
A comparison of figures. Aug., p. 10.  
Creating a solid genetic testing and counseling program requires training. July, p. 3.  
Flu season is here; are you prepared for a sick staff? Dec., p. 11.  
Get them talking. Jan., p. 4.  
Getting a grant: Tips and tricks for success. Jan., p. 6.  
Giving technologists an incentive to meet digital goals. July, p. 9.  
Hints for going green. Aug., p. 3.  
How green is your organization? Aug., p. 4.  
Jump-start your annual to-do list. Feb., p. 11.  
Know your personality 'type.' Oct., p. 4.  
Negotiating an equipment contract. Nov., p. 7.  
Resolve to focus on quality in 2009. Jan., p. 9.  
What you need to know about organizations using grants. Jan., p. 8.

### Quality control and improving interpretation quality

ACR releases self-assessment and education tool.  
April, p. 7.  
Digital vs. analog QC. Feb., p. 3.  
Got digital artifacts? New study can help you eliminate them. Feb., p. 1.  
National Mammography Database provides benchmarks.  
July, p. 8.  
Sample digital artifacts. Feb., p. 4.  
Sample questions from ACR's Mammography Case Review. April, p. 8.

### Red Flags Rule

Check your Red Flags Rule compliance. June, p. 1.  
Quick tips: Registration staff members are on the front lines against identity theft. June, p. 4.  
The Red Flags Rule at a glance. June, p. 2.  
Red Flags Rule delayed until November 1. Sept., p. 1.  
Red Flags Rule resources. June, p. 4.

### Sample forms and policies

Sample ABN form. March, p. 12.  
Sample form to help ensure physician signatures are obtained. April, p. 12.  
Sample Red Flags Rule worksheet. June, p. 5.

### Technology updates

Automated whole breast ultrasound boosts cancer detection in dense breast tissue. Nov., p. 5.  
Comparison of FFDM and DBT. Oct., p. 8.  
Digital breast tomosynthesis has the potential to reduce recalls. Oct., p. 7.  
PEM: Is it right for your practice? March, p. 4.  
PEM: Sample images. March, p. 6.  
Study shows 3T MRI beats mammography and sonography in detecting cancers. July, p. 5.
